

# High-Visibility Safety That Lasts

Checkers Safety™ Warning Whips are engineered for maximum visibility and unmatched durability in the harshest conditions. Whether you're working in mining, construction, or industrial logistics; our premium fiberglass whips stand up to daily abuse where many others fail, optimizing your ROI and enhancing jobsite safety.

## Built for Tough Environments

Trusted by professionals in:

- **Mining:** Improved, 360 degrees visibility for no blind spots for haul trucks, loaders, and dozers
- **Construction:** Enhanced visibility and safety for smaller vehicles like ATVs, which is critical in busy jobsites with frequent contractor traffic.
- **Trucking & Logistics:** Help see critical vehicles or infrastructure in low-visibility areas
- **Industrial Sites:** Improved visibility of equipment and people
- **Municipalities:** Help others see fire hydrants in large snow areas, tree-trimming trucks, snow plows, and bucket trucks
- **Aviation & Off-Road:** Help others see your ground support vehicles, and recreational fleets

### Why Choose Checkers Safety?

- **Fiberglass That Outlasts:** Featuring a premium fiberglass tapered rod for superior strength and flex
- **Rugged Flags:** Day Bright™ fluorescent nylon mesh with optional 3M® Scotchlite® reflective X
- **Heavy-Duty Mounts:** Corrosion resistant mounts with threaded bases that hold strong
- **Water resistant Lighting:** Our all-purpose lighted whips are fully sealed and water-resistant
- **Durability First:** Our whips are engineered to resist breakage better than cheaper alternatives
