

# Lab Safety Product Solutions

An R&D Lab is an inherently dangerous place, with fire hazards, dangerous chemicals, and risky procedures. Protect lab personnel and reduce the risk of fire or explosions when using volatile liquids by purchasing safety products from Justrite Safety Group.

## Autoclavable Anti-Fatigue Mat

The NoTrax<sup>®</sup> Autoclavable Mat is a rubber anti-fatigue floor mat with a bubble top design that withstands the harsh conditions of the sterilization process through use of chemicals or an autoclave. Made with an industrial grade antimicrobial agent that inhibits the growth of most gram-positive and gram-negative bacteria.

## Laboratory Carboys and Solvent Waste Systems

Use Justrite's<sup>®</sup> Laboratory Carboy and Solvent Waste Systems for the storage and dispensing of solvents, buffers, reagents and powders. Excellent chemical compatibility, interchangeable caps and adapters, and ergonomic design.

## Biohazard Containers

Medical facilities, healthcare centers and research laboratories use biohazard waste cans for the safe, temporary storage of biological waste, contaminated laundry and other regulated waste (except for sharps).

## Hazard Communication

Clearly communicate hazards in the environment with NFPA Placards, a custom hazard communication sign or any of Accuform's other right-to-know, and Globally Harmonized System (GHS) products.

## HPLC Disposal Cans

Justrite's laboratory HPLC safety disposal cans and containers feature quick-disconnect features and coalescing carbon filters to keep laboratory and personnel safe with a compliant, environmentally-friendly solution to waste collection. HPLC waste containers are ideal for vapor and fire protection, safeguarding against accidental spills, and maximizing safety and convenience.

## Laboratory Dispensing Containers

Laboratory dispensing containers should be safe and easy to use. Justrite offers a number of containers and bottles to dispense of flammable liquids and solvents safely, without waste or exposure. Ideal for laboratory settings.

 **Justrite**

## Safety Cabinets for Hazardous Materials

Our hazardous material storage solutions are ideal for research environments and laboratories that store hazardous chemicals, such as acids, bases, oxidizers, or toxic materials.
